

## WELCOME ERIC LANGLOIS

We are pleased to welcome Eric Langlois to the Lumencor team in the position of Senior European Sales Manager. Eric brings to the team 20 years of sales and business development experience in photonics, electronics and imaging companies. He is looking forward to working with our reseller partners to deliver the

economic and performance benefits of Lumencor's solid state illumination technologies to customers in Europe and beyond. [Visit our blog to read more about Eric.](#) Please don't hesitate to contact him with your questions or concerns at [eric.langlois@lumencor.com](mailto:eric.langlois@lumencor.com).

## LIGHT ENGINE CONTROL POD INSTRUCTION SHEET

The new Light Engine Control Pod, previewed in October 2015's *Light Reading*, is now shipping to customers. Although set-up and operation of the pod is intuitive and will soon become second nature, a detailed instruction sheet is now [posted on our website](#) for first-time users and prospective customers.

## WEBSITE UPDATE: ELECTRONIC CONTROL

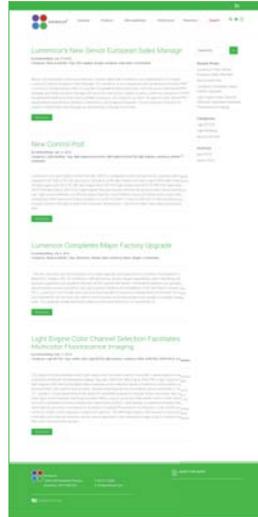

One of the main benefits of Lumencor's solid state illumination technology is its capacity for precise electronic control of light output intensity, color, and timing. Visit our website to view the [NEW one-page summary of electronic control features](#) for our entire light engine portfolio.

Learn more about light engine performance specifications on our website.

## WEBSITE UPDATE: CHECK OUT OUR BLOG

We have started a [blog](#) on our website, located under the Support section. The blog brings all our marketing communications, including *Light Reading*, together under one umbrella. [Check it out](#) to review recent developments in Lumencor's products and applications all in one place.

Thank you for doing some [Light Reading](#).

Please visit [lumencor.com](http://lumencor.com) for more information about Lumencor products and applications.

Iain Johnson, Director of Technical Support at Photonics West 2016

## PHOTONICS WEST 2016

It was a pleasure to visit with friends, old and new, at our Monday evening reception during Photonics West 2016. Thank you to everyone that visited our exhibit booth — we hope you found the product display illuminating – what else! For those not able to attend Photonics West, Iain Johnson (Director of Technical Support) recorded a video presentation demonstrating some of the features of our SPECTRA X and SOLA SE light engines. Be sure to check out the [video on our website](#) on the Media page.
